

Ayr to Stranraer

Road Safety Improvement Programme

A77 at Benane Hill

The work of the Safety Group will complement existing proposals for major improvement schemes on the A77, south of Ayr.

These schemes will improve the standard of the road by providing dedicated overtaking opportunities to assist in reducing both accident rates and travel times on the route.

COME ALONG AND FIND OUT MORE

Drawings and further information about the proposed improvement works and the A77 Safety Group will be available at the following locations:

AYR:

at the County Buildings,
County Hall, Wellington
Square on Wednesday

This multi-disciplinary group is comprised of the Scottish Executive, Strathclyde Police, Dumfries and Galloway Constabulary, Amey Highways, South Ayrshire Council, Dumfries & Galloway Council and West Sound.

SCOTTISH EXECUTIVE

A77 SAFETY GROUP

Ayr to Stranraer

Road Safety Improvement Programme

A77 at Smyrton, South Ayrshire

THE Scottish Executive established the A77 Safety Group in the Spring of 2004 to focus on Road Safety issues that affect communities and road users on the A77 between Ayr and Stranraer.

This multi-disciplinary group is comprised of the Scottish Executive, Strathclyde Police, Dumfries and Galloway Constabulary, Arney Highways, South Ayrshire Council, Dumfries & Galloway Council and West Sound.

The Safety Group recognises that the A77 forms a vital transport corridor. The route carries a broad mix of road users comprising local drivers, commuters, freight transport and tourist traffic. The Safety Group will develop measures to improve both road safety and the road user experience on this length of the A77.

The measures will not only focus on engineering but also on education and enforcement.

Proposed improvements to the route will be advanced in consultation with interested parties.
