What Is This Document For?

South Ayrshire Health & Social Care Partnership (SAHSCP) is aware that carers provide a range of informal support to individuals across our communities. The support provided by unpaid carers improves the health and wellbeing of individuals with support needs. It also enables them to live at home and to be part of their communities.

We understand a break from a caring role is vital to maintain the health and wellbeing of a carer. A break may be needed to deal with other family responsibilities or to attend a doctor or dentist appointment. In other situations, a Short Break such as a holiday may be necessary.

This Short Breaks Statement explains how the SAHSCP will help you to get these breaks from caring. It tells you:

- Why and how we have developed the policy;
- What we mean by ‘Carers’, ‘Short Breaks’ and ‘Respite’;
- How you can access Short Breaks in South Ayrshire and how we can support you to do this;
- The range of different Short Break services that may be available to you as a carer;
- The maximum annual amount of short breaks we provide is equivalent to the cost of four weeks traditional respite.
- Other options for support and guidance available to carers like you in South Ayrshire.

Why Have We Developed This Policy?

As carers, you have certain legal rights:

- The Carers (Scotland) Act 2016 places a legislative requirement on the SAHSCP to provide support to carers, including Short Breaks. The Act also requires the SAHSCP to publish a statement setting out information about Short Breaks, including what services are available for carers.
- The Social Care (Self-Directed Support) (Scotland) Act 2013 says that SAHSCP should provide information and advice about Self-Directed Support (SDS) options. If you are eligible, we must offer and explain a range of choices to you and the person you care for, about how support can be provided.
- The Children & Young People (Scotland) Act 2014 places a duty on public services such as Social Work, Education and Health to identify Young Carers. These services must also work together to make sure that these Young Carers are provided with the required support.

SAHSCP and our partners in the community want to meet these legal responsibilities. What’s more, we are committed to making sure that your health and wellbeing are treated just as seriously as those of the person you care for. This will also include access to the Short Break opportunities you need to support you in your role.

We will also gather information on which services are effective in supporting carers. This information will influence the Short Breaks services that we ‘commission’ locally from 2018 onwards.
What Do We Mean By ‘Carers’, ‘Short Breaks’ and ‘Respite’?

Carers

At SAHSCP, we define a ‘carer’ as an individual who provides or intends to provide unpaid care for another individual (the cared-for person). Anyone could be a carer: here are some examples:

- A 15-year-old girl looking after a parent with an alcohol problem
- A 40-year-old man caring for his partner who has terminal cancer
- An 80-year-old woman looking after her husband who has dementia.

Young carers are under 18 years old, and often still at school. They are likely to have particular needs and often require support from a range of services, including Education.

‘Short Breaks’ and ‘Respite’

At SAHSCP, we use the Shared Care Scotland description of Short Breaks, as set out below:

“A short break is any form of service or assistance which enables carers to have sufficient and regular periods away from their caring routines or responsibilities. It is designed to support the caring relationship and promote the health and wellbeing of the carer, the supported person, and other family members affected by the caring situation.”

Sometimes, the term ‘Respite’ is used to describe a break from caring. In general, our staff, partners and carers themselves increasingly feel that ‘Respite’ is more often associated with institutional services or emergency situations. We prefer to use the term ‘Short Breaks’. We believe it is a more positive term and more in line with the flexibility and creativity that you as carers have told us you want.

Types of Short Breaks

If you are a carer, there are lots of ways you can take a Short Break. This could be for a few hours, overnight, for a weekend, or longer. A support plan will be put in place so you can be confident that the person you care for will be looked after in their own home or in another supportive, safe environment. You can then take some time for yourself to:

- Spend some time on your own or with friends;
- Take a holiday;
- Recover from an illness;
- Do other things that improve your own health and wellbeing.

SAHSCP will provide you and the person you care for with choice and control and as a result a Short Break could take many forms.
For example:

- A few hours of care for the person you care for, provided by another family member or friend;
- Volunteers coming into your home to provide support;
- Paid carers coming into your home to deliver the care required, at times that fit in with your plans;
- Regular daytime activities to give you a break, for example access to the community with voluntary or paid support or attendance at day centres/play schemes for the person you care for;
- Regular, supported leisure activities to improve your health and wellbeing;
- Short-term overnight support at home or in a suitable supported environment;
- A family holiday away from home, with paid or volunteer support;
- A set period in a supported living environment.

What Are Our Guiding Principles?

Before writing this document, we spoke to a range of people who would be affected by this statement. These included groups of local carers (via the South Ayrshire Carers Centre), voluntary groups that advise and support carers locally, staff who help run services in South Ayrshire and other organisations that provide Short Break services in our communities.

These discussions helped us to set out the guiding principles for the policy, listed below:

- You and the people you care for will be at the centre of planning for the Short Break and the Short Break will be personalised to your needs.
- We want you and the person you care for to be able to live independently for as long as possible. Wherever we can, we will help you to discover what skills and knowledge exist in your community, including among the people and organisations you already know, which can support you to achieve this.
- We will work with our partners locally – health, community and voluntary sector organisations – to identify flexible ways of providing you with support.
- You will have choice and control over Short Breaks to meet your needs, including through use of Self-Directed Support (SDS) options where they apply.
- The Short Breaks we help you to arrange need to make a difference to your lives. This means we will focus on ‘outcomes’, making sure that we identify the steps you need to take to improve your own health, wellbeing and safety, as well as your ability to continue to care.
- All our documents will be written in Plain English and will be made available in a wide range of places across South Ayrshire.
How Can I Get a Short Break and What Do I Need To Do To Arrange It?

How We Assess If You Are Eligible For Support

We will use the Partnership’s Carers Eligibility Criteria and work with you to complete an Adult Carer Support Plan or a Young Carer Statement (if aged 18 and under). We will provide information and advice to all carers across South Ayrshire. We will only provide funded support (including Short Breaks) to carers who are assessed as having a critical level of needs.

In order for us to assess your caring role we will look at:

- The impact of caring on your health, wellbeing, employment and ability to socialise;
- What other informal support is available to both you and the cared for person;
- Your relationship with the person you care for (or the wider family) and if it is becoming difficult;
- The amount of time spent caring each week;
- How long it has been since you last had a break;
- If you are the only person providing care and if you care for more than one person;
- Your ability to make arrangements for a Short Break with support.

Once all the information is gathered we would then determine and apply a level of eligibility and if your needs require funded support. We only provide funded support (including Short Breaks) to carers who are assessed as having a critical level of needs.

A definition of critical needs is as follows:

**Critical** would mean there are critical risks to your health and these are affecting your ability to continue in your caring role. Critical risk is likely to call for the immediate provision of formal social care services.

Following the assessment if your needs are not critical we will provide you with the appropriate information and advice including how you can access a range of local services. If you are not already doing so, it is likely that you will be able to get some valuable support from these organisations.

Many carers in South Ayrshire can arrange their own Short Breaks by asking for support from voluntary and/or private sector organisations that they already know. SAHSCP can help with those activities too, by advising you directly or by giving you details of relevant organisations in the local area.

Reviewing the Decision

If you have completed a carers support plan and you don’t think you are getting a service that you are entitled to, you can complain to us at SAHSCP, by:
Completing the form online at https://www.south-ayrshire.gov.uk/complaints/hscp/

Calling us on: 0300 123 0900

Writing to us at: Customer Services, South Ayrshire Council, Freepost NAT 7733, Ayr, KA7 1DR.

The Process for Accessing Short Breaks

The diagram below describes how to get a Short Break in South Ayrshire.
For Adult Carers, we assess Health & Wellbeing, Relationships, Finances, Life Balance, Future Planning and Living Environment.

For Young Carers, we assess if you are: Safe, Healthy, Achieving, Nurtured, Active, Respected and Included.

1. We may already know about you or the person you care for: you should ask for a support assessment or ‘Short Breaks’ when we see you.
2. Someone else in your life (e.g. a doctor, teacher or relative) recommended that we get in touch with you to offer help.
3. We will complete either an Adult Carer Support Plan (ACSP) or Young Carer Statement (YCS).
4. That involves talking about your health and general well-being.
5. It may be that you can get support and advice from other resources in the community straight away.
6. Our work with you may reveal that your needs are considered ‘substantial’ or ‘critical’.
7. This means that we agree there are currently risks to your health or wellbeing and that you need help now from health or social care professionals.

We will work with you to identify your ‘outcomes’ – this means the steps you need to take to improve your wellbeing and health.

We will identify and direct you to community support locally – that may include advice on carers’ rights and on boosting your income.

1. You a direct payment to purchase support yourself. You have access to advice from SAHSCP staff.
2. You choose your own support while SAHSCP arranges the chosen support on your behalf.
3. You choose to have SAHSCP select the appropriate support and arrange it for you.
4. You choose a mix of options 1, 2 and 3 for your support.

You can request to change the plan at any time through your social worker.
Answers to Questions You Asked Us:

In researching this policy, we consulted with local carers and gathered some of the questions they asked. We have set out these questions and our answers to them below for your information:

**Question 1:** How much support will I get?

**Answer 1:** The length or number of Short Breaks you will be offered will be dependent on your assessed needs and personal circumstances. The annual amount of short breaks you can receive will be up to the equivalent cost of four weeks in a residential establishment. Only in the most exceptional of circumstances will any additional resource be considered.

**Question 2:** Who pays for a Short Break?

**Answer 2:** There are three potential answers to this question, which will depend on the content of the Adult Carer Support Plan or Young Carer Statement that you will complete with us. The three options are:

1. **Fully-funded by SAHSCP:** If you have critical needs we may fund the Short Break completely. This could be delivered by using one or a mix of Self-Directed Support (SDS) options.

2. **In some situations we may part-fund a short break with other funding provided by you or another partner.**

3. **Self-funded:** You may choose to arrange and pay for a Short Break service yourself (although SAHSCP may be able to advise you on how to do it).

If you want to add to any of the services, you're free to pay for the extra part of that service yourself in all cases.

**Question 3:** When do I get the Short Break, and how often?

**Answer 3:** This will depend on the impact of your caring role, the needs of the person you care for, and what is agreed in your support plan. The maximum amount of short breaks you can receive will be the equivalent cost of four weeks traditional respite annually.

Short Breaks will be arranged according to your needs. If SAHSCP is fully or part-funding your Short Break, we will work with you to design the break, which could take the form of:

- Regular weekly or monthly breaks throughout the year;
- A planned or scheduled holiday break;
- A one-off or emergency arrangement.
**Question 4:** What can I spend any SDS funding on?

**Answer 4:** SDS funding allows you to explore a range of different Short Break options that are suitable to your personal situation.

For example, you could use your agreed budget to:

- Purchase membership of leisure facilities, such as a gym or swimming pool for yourself;
- Employ a personal assistant to accompany the person you care for on leisure breaks, with or without you;
- Hire or buy equipment that helps you or the person you care for to take Short Breaks;
- Combine your budget with that of another carer you know to fund different types of Short Breaks.

**Question 5:** Can I organise my own Short Break?

**Answer 5:** Yes, you can also arrange Short Breaks yourself – either using any SDS money you are entitled or your own money.

**Question 6:** What happens in an emergency or crisis situation?

**Answer 6:** In emergencies (for example, if you have to leave the family home for a certain amount of time) temporary ‘Respite’ care can be provided by another family member or you can contact us to discuss the potential of support from a provider. A provider may be able to provide the type of care needed at short notice. It is likely that you will have to help us complete an assessment and support plan, but this can be done after we put Respite arrangements in place for you.

**Question 7:** Will I have to pay anything towards the cost of a Short Break?

**Answer 7:** If you have eligible needs and a support plan is completed and a short break is identified as giving you a break from your caring role there will be no charge. At the completion of a support plan if you are eligible for funded services, the practitioner will explain more information to you regarding the waiving of charges regulations.
What Short Break Services Are Available Locally?

The Enquiry and Information team at SAHSCP is a useful first point of contact. You can contact the team by phoning: 0300 123 0900. They will be able to give you a wide range of information on the local services that are available to you.

It is likely that these services will include the ones set out below. Some of these services are specifically for you as carers, while others are for both you and the person you care for.

A range of organisations relevant to South Ayrshire are set out in the table on page 15.

Further Information and Feedback

Equalities and Impact Assessment

An Equalities and Impact Assessment has been completed and can be found here.

Review and Feedback

Our Short Break Statement will be reviewed on an annual basis or in response to any new development.

If you require further information about how our Short Breaks Statement has been compiled please contact 0300 123 0900.

We value comments and concerns about the health and social care functions for which we are responsible and will use information from them to help us to improve what we do. If you wish to make a complaint, suggestion, compliment or general query about this document, please do so by completing our online form.

What Support and Guidance Is Available To Carers In South Ayrshire?

In South Ayrshire, the South Ayrshire Carers Centre, hosted and run by Unity Enterprise and Carers Trust, provides a wide range of support for carers. They offer specialist information, support, advocacy and advice to carers and young carers all over South Ayrshire – as well as supporting Short Breaks.

Another way in which they support carers is to make sure that you and the person you care for are getting all the state benefits that you are entitled to. They can do this by arranging benefits checks or by putting you in touch with other organisations such as the Department of Work and Pensions (DWP) or Citizens Advice Scotland.

South Ayrshire Carers Centre has a drop-in office in Ayr Town Centre, and also runs outreach support groups in Troon, Maybole and Girvan. You can contact them via www.unity-enterprise.com or 01292 263000.

In addition to the Carers Centre, there are many other organisations that provide information and advice for carers. These are set out in the tables below:

Glossary: Some Useful Definitions

Some of the words we use in the policy may need further explanation. We have provided a more detailed definition of some of the most commonly used terms in this policy that you may not be familiar with:

- **ACCESS**: the availability of services – ‘getting the care you need’.
- **ADVOCACY**: The process of supporting someone to say how they feel about an issue that affects them or that they are concerned about. It might be about supporting someone in a meeting, helping someone to express their rights, helping someone to access services and information or helping someone to explore different options.
- **ASSET-BASED APPROACH**: Using the skills and knowledge of individuals and the connections and resources within communities and organisations, rather than focusing on problems and challenges. This approach aims to empower individuals, enabling them to rely less on public services.
- **ASSESSMENT**: Reviewing someone’s health and care needs, considering the circumstances of an individual, and his/her family or community when looking at future plans. An assessment is carried out with you and staff from SAHSCP to consider your needs and will form either the **Adult Carer Support Plan** or **Young Carer Statement**. It will enable you to find out if you are eligible for support in your own right, including possible Short Breaks.
- **CARER**: An individual who provides or intends to provide unpaid care for another individual (the cared-for person) because of their age, physical or mental illness, substance misuse or disability. This excludes someone paid or employed to carry out that role, or someone who is a volunteer.
- **CARED-FOR PERSON**: Either a child (under the age of 18) or an adult (over the age of 18) with a need for care and support – they receive care or support from carers, paid staff or others. Unless stated otherwise, in this policy, it also means that the person has been assessed and found to have eligible needs.
- **CARE PACKAGE**: Used to describe all the different types of care that make up the total care received by an individual. For example, they may receive home care support and attend day centres. All these services together make up the ‘Care Package’.
- **CHOICE AND CONTROL**: Is about shaping serves to meet people’s needs, rather than allocating people to fit around services.
- **COMMISSIONING**: A process in which SAHSCP works out what health and care needs we have locally, assesses that need against what is being provided and develops and buys appropriate services.
• **ELIGIBILITY CRITERIA:** A comprehensive set of rules through which SAHSCP can assess your needs as a carer. They are designed to ensure the limited public resources available are targeted at those with the greatest level of need. It also enables SAHSCP to demonstrate fairness, consistency and transparency in how we make decisions and spend money.

• **INDEPENDENT LIVING:** Means having the same freedom, choice, dignity and control as other citizens at home, at work and in the community. It does not necessarily mean living by yourself or fending for yourself. It means having rights to practical assistance and support to participate in society and live an ordinary life – even as a carer.

• **INDEPENDENT SECTOR:** Individuals and organisations contributing to needs assessment, design, planning, commissioning and delivery of health and social care, who are wholly or partially independent of SAHSCP. This may include care homes, private hospitals and home care providers for example.

• **OUTCOMES:** The impact or end-result of services, support or activity on a person’s life. These are usually focused on your quality of life as a carer, and defined as the steps you need to take to improve aspects of your life relating to your own safety and security. These will be identified and described when developing your Adult Carer Support Plan or Young Carer Statement.

• **PERSON-CENTRED:** An approach to working with people which respects and values the uniqueness of you as a person, putting your needs and aspirations firmly at the centre of the process.

• **RESPITE:** Used to describe a break from caring. SAHSCP staff, partners and carers themselves more often take the view that ‘Respite’ is associated with institutional services or for emergency situations. We prefer to use ‘Short Breaks’, which we believe is a more positive term and more in line with the flexibility and creativity you as carers want.

• **SELF-DIRECTED SUPPORT (SDS):** The support that individuals and families have after making an informed choice on how resources can be used to meet the outcomes they have agreed. There are four options that SAHSCP has a duty to offer:

  1. We make a direct payment to the supported person in order that the person can then use that payment to arrange their support.
  2. The supported person chooses their support and the partnership makes arrangements for the support on behalf of that person.
  3. SAHSCP selects appropriate support and makes arrangements for its provision.
  4. A combination of options 1, 2 and 3 for elements of a person’s support.

• **SHORT BREAKS:** We use the Shared Care Scotland description of Short Breaks: “A short break is any form of service or assistance which enables carers to have sufficient and regular periods away from their caring routines or responsibilities. It is designed to support the caring relationship and promote the health and wellbeing of
the carer, the supported person, and other family members affected by the caring situation."

- **SAHSCP (SOUTH AYRSHIRE HEALTH & SOCIAL CARE PARTNERSHIP):** Set up in April 2015, it is responsible for the planning, funding and delivery of a range of community health services and social work/social care services for older people, adults, children and families and people in the Criminal Justice System in the South Ayrshire Council area.

- **YOUNG CARER:** Someone aged 18 or under who provides or intends to provide unpaid support or care for a family member, partner, child, or friend because of their age, physical or mental illness, substance misuse, or disability.

This information can be made available, on request, in braille, large print or audio formats and can be translated into a range of languages. Contact details are provided below.
