### **Opportunity**

Since moving into a dedicated gymnastics facility, our club has now been able to access a host of exciting opportunities for our local community. Please see some examples below:

- Local Primary & Secondary schools have P.E lessons, health days/ weeks and fun reward sessions in our gym. Delivered by our coaching team.
- We have secured three years funding from the Big Lottery, Young Start Fund for the following projects to help immerse the club further in the community: 1. 10 fully funded scholarship for young people who attend the two Primary schools in the immediate area of the facility. 2. Introduce disability gymnastics in partnership with Dumbarton Disability Sport Club. 3. Volunteer programme to support the growth and development of young people aged 14-16yrs who see a potential career in the sport.
- Scottish Gymnastics and Sports Scotland have recognised the facility as one suitable to host coach education courses, forums and other networking events.
