I object to the Community Asset Transfer request from Dundonald Gymnastics Club in relation to Muirhead Activity Centre, KA10 7AZ.

This facility was intended for the use of local people and clubs and is extremely well attended. If we are not allowed to use it what will happen to all the older people who are always being urged to keep fit and active thereby saving the NHS money in the long term. The council tax generated from the hundreds of new houses presently being built in Troon should surely help to keep the centre open.

Many people are saying that the outcome of this transfer has already been decided, I would like to think that this is not the case and the number of objections will result in the centre being kept open.

Regards
