

**REPORT TO SOUTH AYRSHIRE SUSTAINABILITY FORUM
OF 24th June 2009**

SUBJECT: Single Outcome Action Plan

1. Purpose.

To update the Forum on the Clean, Attractive and Sustainable Action plan of the Single Outcome Agreement

2. Background.

An Action planning workshop for Sustainability Forum Partners and other relevant organisations took place on 22nd April 2009. The aim of the workshop was to identify and develop current and proposed actions by partner organisations which support Local Outcomes 14, 15, and 16 of the Single Outcome Agreement, around sustainability, the environment and carbon emissions.

3. Considerations

22 participants from 8 partners and a range of Council Services participated in the workshop. Some 48 actions overall have been identified as detailed in the attached templates. Further work requires to be carried out in respect of targets and timescales, and in some cases lead partners still require to be designated.

In addition, consideration requires to be given to an effective coordination and review process, and suitable mechanisms for this will be examined in a wider context with the Community Planning Coordinator.

Further development of the action plan is envisaged as new organisations and actions are identified, for example through improved liaison with other theme group partners and community organisations.

4. Recommendations.

Partners are invited to comment on the action plans attached, and to consider the issues set out above.
