

Working for Ayr North

Wallacetown Walking Football Tournament

In partnership with Believe Suicide Bereavement Charity and Ayr United Football Academy, the Working For Ayr North team brought together local residents, community groups and partner organisations for an inclusive walking football tournament that promoted positive mental health, physical wellbeing and social connection.

The event provided an opportunity for people of all backgrounds to build new friendships, access local support services and celebrating the strength of community. The event also celebrated the opening of Ayr United's new community astroturf pitch, a valuable resource for local people to enjoy."
