I feel very strongly that this proposal should be given the green light as soon as possible. This is a small extension to an existing facility which I am sure a majority of respondents to this survey will view favourably. This people's mandate will hopefully end the disgraceful and infuriating opposition to any change to Common Good Land. This land is for the common good of the people in this community, this and 3G pitch, mostly for the benefit of the areas youths must not be delayed any longer.

Yours sincerely

Girvan
