## Parental Involvement and Engagement Census (PIE) 2021/22

Thank you for taking part in the Parental Involvement and Engagement Census.

Parents and carers are by far the most important influence on children's lives. Research shows that when parents are involved in their child's learning, children do better at school and throughout their lives. We would like to get an idea of how you feel about your child's school and to give you a chance to reflect on the involvement and engagement you are experiencing.

Please take the time to answer the questions below, we value all of your responses and will use them to plan for our next staps in parental engagement opportunities and programmes.

Completing the questionnaire should take no longer than 10 minutes and your answers will be kept completely confidential.

To begin, please tell us which school you are about to answer questions about.

You may have one or more children in this school. This doesn't matter. Just answer the questions about the school you have selected.

if you have children who attend different schools within the same local authority then we would like you to complete the survey for each different school your children attend.
