Accessible Ayr Town Centre Survey

The Town Centre Survey ran 29th Aug – 15th Sept

**65** respondents overall – 35 from business / 30 from residents. The key themes are summarised opposite; with full consultation results summarised in separate report – issued September '22

Key Take Aways / Output

#### Travel

- Bus routes and prices are prohibitive
- Public transport infrastructure will need improvement
- Majority of movement to and around town is via car or on foot
- Parking provision is unsatisfactory
- Cycle access requires improvement

# Town Centre / Footfall & appeal

- current town Centre is negatively impacting on footfall and spending
- not welcoming to pedestrians or cyclists
- Generally, the proposed changes could improve footfall and spending in the town,

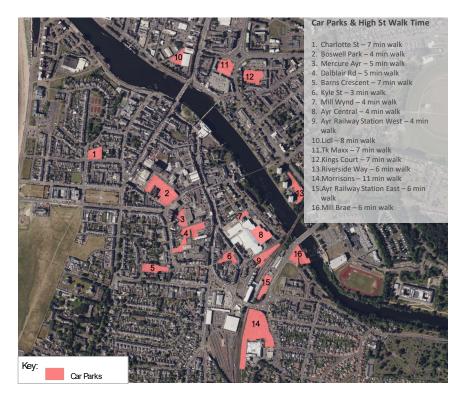

# **Business operations**

- preference for delivery would be morning through to lunch time
- Most deliveries are serviced by vans
- Most deliveries are 'on street' access
- Majority of refuse is collected by Trade waste or Centrally organised contract

Accessible Ayr Public Engagement

Two drop-in sessions were held on 1<sup>st</sup> November, one in The Grain Exchange on Thursday 17th November the other at Ayr Central Shopping Centre on Saturday 19th November.

We had **321** / **280 visitors** respectively.to each of these events

# **Key Themes**

#### General

• People asking WILL THIS HAPPEN? – general cynicism

# **Transport / Parking**

- High Street Proper management of vehicular access as part of the design solution will be critical, it is currently a 'Restricted Zone' which is unpoliced.
- Many people misinformed about the car restrictions and parking
- Education needed on the movement of cars around the town Centre. Including how to access existing car parks.

# Safety

 The streets need to be safer and more welcoming in the

ACCESSIBLE AYR

Comments on current cycling around Ayr being dangerous.

Accessible Ayr Public Engagement

#### **Public Realm**

- Public realm improvements were well received
- public skeptical on how this will enhance the town economy.
- Some are fully supportive of the principles
- People were positive about the high-quality materials that would be used as currently very dated, and the uneven ground is dangerous
- negative views about the condition of the buildings along the High Street Also, maintenance not being carried out on the exterior of the buildings.
- Ongoing maintenance a concern

# **Business operations**

 loading bays in the High Street need to be considered

#### Wider Network

 pretty positive about creating links from the periphery of Ayr to the Town Centre

Majority of respondents, 74% live in Ayr, others are from surrounding towns and a few from further afield such as Glasgow.

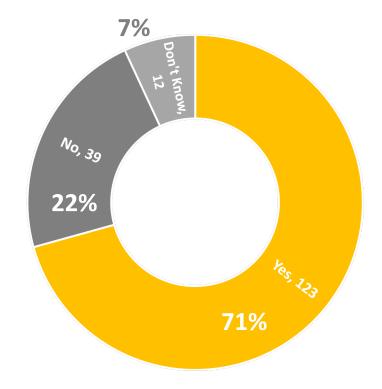

Generally, there was an even split between Male and Female, with a few preferring not to say or identifying as non-binary.

When asked if they think the proposed improvements to the Town Centre will make the Town Centre more attractive, people said:

When asked if green and open space was important for the Town Centre: people said:

Travel - Main way that people get in/around Ayr

# **Transport / Parking**

- The car is dominant in that the main way people get in and around Ayr is by Car and then on foot
- Volume of traffic effects peoples desire to cycle in town
- Parking General opinion is that there is limited parking near to main shopping area. Want to see access to free parking close to shops – Park and ride option to bring people back into Ayr
- Segregation of vehicles/pedestrians/cyclists required

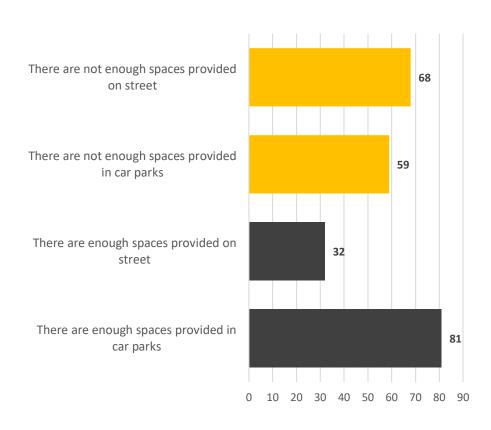

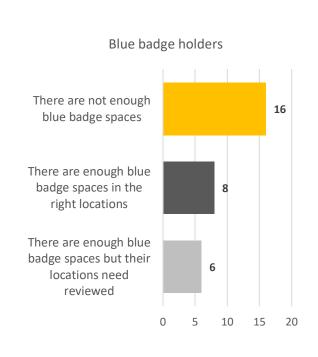

# Accessible Ayr - Public Consultation Round 1

**Parking** 

Views on parking in Ayr town Centre

**Mixed views of provision received -** 127 people think that there aren't enough spaces vs. 113 that believe there is enough; no real run-away answer on this

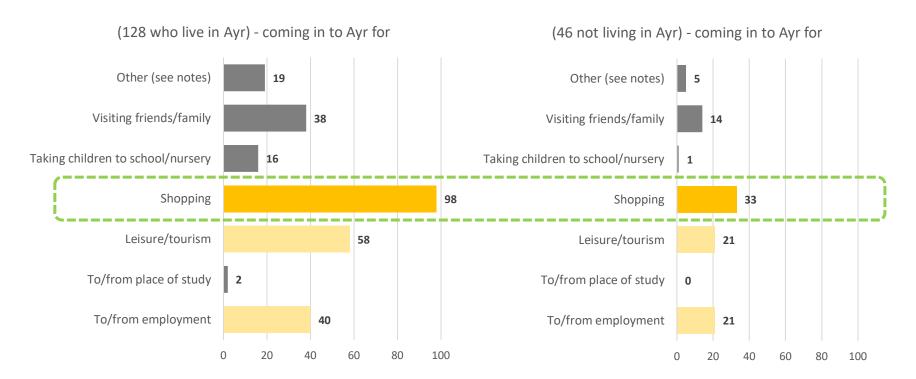

#### Travel

## Main reason that people travel into/around Ayr

 Across the board the main reason for going into town is for shopping; surprising given the negativity towards the Town Centre and its lack of shops

#### Vacant Retail a concern

 Number of empty shops/units needs addressed – not a nice place to spend a lot time in

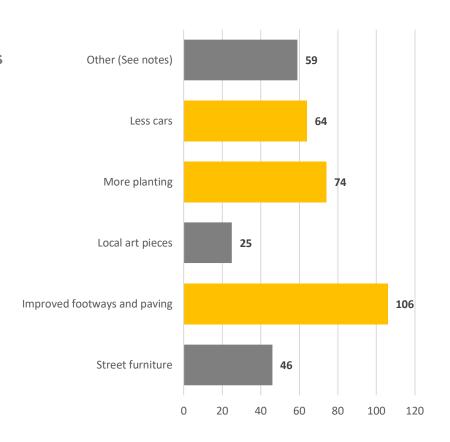

#### **Ayr Town Centre**

#### Change to Ayr town Centre

Opposite shows what people would like to see in the Town Centre, **improved footways & pathways being top of the priorities**; additional comments were made which included the following:

- Designated cycle ways / routes
- Better accessibility for wheelchairs / walkers
- Inclusivity access for all
- Benches
- Planting / wildflower planting
- Cleaner streets
- Street policing (undesirables)
- Eating outside / café culture
- Better & improved Parking
- Drop off / pick up points
- Better range / more shops
- Regeneration of buildings / fewer empty shops / improved maintenance
- Covered walkways
- More bars & cafes, artisan markets, music events

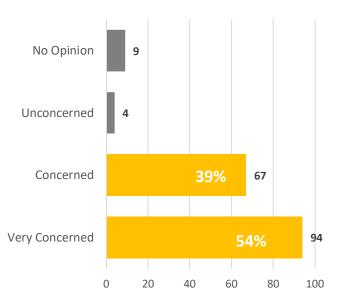

Ayr Town Centre - Cleanliness & Safety of the streets in Ayr

#### Cleanliness

- People are generally concerned with the cleanliness of Ayr.
- This is a wider issue and should be looked at in conjunction with this project; other SAC initiatives/projects and the Town Plan

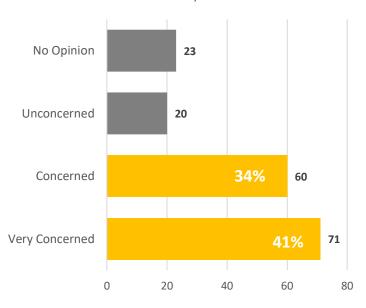

# Safety

- People do not feel safe cycling with the lack of segregated cycle routes and a wider cycle network to get into town from more outlying areas
- Safety concerns: beggars & junkies on the streets

   people feel unsafe and would like to see more
   policing of this This is a wider issue to the

   Accessible Ayr project; but should be looked at in conjunction with this project; other SAC initiatives/projects and the Town Plan

#### Concern with Safety on the streets

# **Next stages**

Opportunity to maintain connections in all educational establishments

- All establishments Opportunity to engage further and have young people voice their enthusiasm for change both for travel in Ayr and for a better town Centre
- Primary schools working with active travel hub and JRSOs to work on active travel initiatives such as walking & cycling buses, build the 'Bike ability' uptake and Dr Bike sessions with schools. This could start to see a change in behaviours on use of bikes as the network is built.
- Need to consider how we engage with young people in the higher SIMD areas where we experienced lower levels of hope and ability to see positive change. Important community and their inclusion in the project is critical
- Secondary build on work for town centre; create on going group to develop opportunities for where young people could 'gather'
- College develop a behavioural change project linked to a specific group as part of their qualification
